**Advisory Action**  
**After the Filing of an Appeal Brief**

Application No.

09/770,074

Examiner

Perez M. Angelica

Applicant(s)

I'ANSON, COLIN

Art Unit

2684

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

The reply filed 0 September 2005 is acknowledged.

1. ☐ The reply filed on or after the date of filing of an appeal brief, but prior to a final decision by the Board of Patent Appeals and Interferences, will not be entered because:

a. ☐ The amendment is not limited to canceling claims (where the cancellation does not affect the scope of any other pending claims) or rewriting dependent claims into independent form (no limitation of a dependent claim can be excluded in rewriting that claim). See 37 CFR 41.33(b) and (c).

b. ☐ The affidavit or other evidence is not timely filed before the filing of an appeal brief.  
See 37 CFR 41.33(d)(2).

2. ☐ The reply is not entered because it was not filed within the two month time period set forth in 37 CFR 41.39(b), 41.50(a)(2), or 41.50(b) (whichever is appropriate). Extensions of time under 37 CFR 1.136(a) are not available.

Note: This paragraph is for a reply filed in response to one of the following: (a) an examiner's answer that includes a new ground of rejection (37 CFR 41.39(a)(2)); (b) a supplemental examiner's answer written in response to a remand by the Board of Patent Appeals and Interferences (37 CFR 41.50(a)(2)); or (c) a Board of Patent Appeals and Interferences decision that includes a new ground of rejection (37 CFR 41.50(b)).

3. ☒ The reply is entered. An explanation of the status of the claims after entry is below or attached.

4. ☐ Other: \_\_\_\_\_

Claims remain rejected as in the Final Action. As explained before, latency if broadly interpreted can be used as a "criteria" to be taken into consideration as an "acceptable delay before transfer initiation". Latency provides the time it will take the information to travel through the network, therefore, the user can have an estimated time duration of delivery, before the data initiates its transference.
